

Onyx-P

The Standard For Upscale Retail ATMs

► The Onyx-P model adds a Motorized Presenter module and high-performance cash dispenser to this already popular and reliable platform.

► The Onyx-P features a high-resolution 10.1" wide screen, or an optional 12" touch screen, a security reflective front with touch keypads. The strong cabinet, tough exterior and security enhancements make it durable enough for any location. Onyx-P is ready for your customized screen graphics which includes new branding features. An optional 3" printer is available for receipt graphics and couponing.
