

GEMINI-A

The Game Changer
Smaller Price, Smaller Footprint
Unlimited Functionality
More Flexible
More Affordable

➤ Genmega introduces the new Gemini-A Kiosk, designed for any vertical that requires a secure and customer-friendly way of accepting cash. Built with the cabinet of the Genmega Onyx and 2500 ATMs, the Gemini-A has a UL291 business hour safe that has been field-tested in over 100,000 ATMs. In addition, the Gemini-A utilizes the same 21.5-inch touch screen used in the Genmega Universal Kiosk line providing an attractive front that is both appealing and easy to use. A small footprint, a secure environment, and a sleek look all make the Gemini-A the kiosk of the future.

GEMINI-A

The Game Changer
Smaller Price, Smaller Footprint
Unlimited Functionality
More Flexible
More Affordable

➤ The Gemini-A can be customized with a camera, uninterruptable power supply, various cassette sizes, and a barcode scanner to allow crypto purchasing, bill payment, sports betting, and any vertical that requires a cash purchase. Whether in Windows or Linux, the Gemini-A combined with the Genmega SDK allows solution providers to create whatever environment they need for their product. The Gemini-A is truly the game-changer for cash accepting solutions.
